

## We're Renovating and Remodeling!

A new and vibrant energy is coming to our buildings. Rooms that have been sitting empty, void of any activity, will now be bustling with new life and programs.

Next August, our Montessori school will be using the 2<sup>nd</sup> floor of the Education Wing for their upper elementary classes. This expansion will help our growing school meet the needs of a successful program and retain more families.

Youth Ministry is moving to the large conference room on the 2<sup>nd</sup> floor of the office wing. That room is begging to be used, as most meetings occur in the Fellowship Hall. Should we want to use the future Youth Room for a class or meeting, tables and chairs can be easily set up to accommodate that need.

A storage closet is being built outside of the Choir Room. Across from it, a Historical Wall will showcase the photographs of our pastors, as well as historical photos of the church and region. Once the row of pastor photos is moved, an attractive welcome sign will greet people as they walk through the north entryway: "No matter who you are or where you are on life's journey, you are welcome here."

These renovations will maximize building usage, increase revenue, de-clutter our public spaces and welcome visitors. The monies for these projects are coming from four sources: the Montessori school, Men's Ministry, Youth Ministry, and designated donations. We are grateful for their generosity and commitment to the vision of creating a vibrant and welcoming church.

These renovations will be completed before Memorial Day. If you have any questions, feel free to contact one of the pastors.
